

FRASIER

The Meadows Day Program

At Frasier, we believe in connection, engagement, and relationships.

The Meadows Day Program at Frasier offers engaging and stimulating activities throughout the day for seniors with memory challenges. This program provides a sense of purpose, and encourages creativity, and personal growth, as well as physical, emotional, and spiritual wellness in a social and engaging atmosphere. The program maintains a high level of care to meet the needs of the individual by promoting independence to empower participants to remain in their own homes, or the home of a family member and/or caregiver.
